

KUM603-2

Marine and Land Based HF/SSB Antenna

KUM603-2 is a 3 section omnidirectional side-fed HF transceiver antenna with a connection transform box for coax cable. The antenna receiver design fits automatic antenna tuned systems for both leisure and commercial vessels. The KUM603-2 is manufactured in premium quality materials in order to prevent galvanic corrosion. Radiating elements are made of copper.

KUM603-2 has been sold worldwide for more than three decades. The antenna is subject for improvement at all times. The antenna has the same rugged design as all other AC Antennas products thus it withstands harsh environmental conditions, both on sea and land.
